Dear Harold,

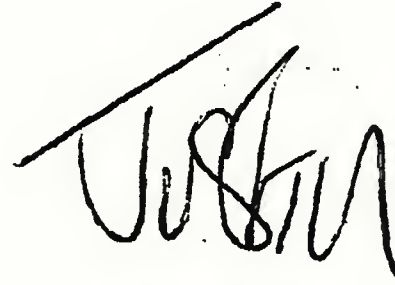

While I also see no connection between Shaw, QK-Enchant, and the Assassination it will be interesting, knowing what we now know about Shaw, to find out what this project was? As far as the FOIA request is concerned I understand it was made by a guy called Bill Davy on behalf of a group called Citizens for truth about the Kennedy Assassinations. Jim Dieugenio, author of "Destiny Betrayed", keeps me informed on this and all that I know so far is what I have told you in this, and previous letters.

Thank you for your comments on Milteer and the Bishop/Phillips/Veciana affair. If I have read your letter correctly, you believe these are both red herrings? and both have no real relevance? MY only comments to these are that Gaeton Fonzi has obviously done alot of hard work in this area, especially during his time with the HSCA. I have his book "The Last Investigation, and when I have read it I will contact Him. I recieved a letter back from Anthony Summers who said that he believed Veciana. As with Milteer it is interesting to me how he predicted the Assassination with so much accuracy. I am also convinced it is him standing on Houston street as the motorcade is passing by.

I have recently been reading alot about Deputy Sheriff Roger Craig and what happened to him after the Assassination. He and his family were put up by Penn Jones Jnr for a while. Had I known about this in November last year, it would have been an advantage on my part. When I was in Dallas in November I had the good fortune to spend an evening with Penn and his wife, at his home. Of course I think we talked about almost everything exept Roger craig. Unfortunately his health is deteriorating quite rapidly, and I would not want to bother him.

I hope you are keeping yourself fit?, and everythings OK, take care and I look forward to hearing from you soon.

All the best

JUSTIN D. BOWLEY
